Allometric growth relations	258, 259
Antheraea pernyi	30
oocytes	30
Arterioles,	178
distribution of	179
in subarachnoid space	176
Australian aborigines	109, 207
craniofacial morphology of	109
growth of	207
Axial patterns of protein and nucleic acid synthesis in Planaria	151
Body proportions in dwarf hamsters	11
Bovine leukemia	1
Carnitine	405
growth effects of	405
Cartilage, effect of estrogenic hormone on	312
Cecropia	18
oogenesis in	18
Cecropia female, metamorphosis in	20
Cecropia pupa ovariole	21
diapause phenomena in	21
Cell cultures,	201
immunofluorescent studies of	201
Cell strains studied by immunofluorescence	203, 204
Cephalometric research	97
factor analysis in	97

Cerebral cortex 173
  factor analysis in 97
Chick embryo, weight of 165
Choline-related compounds 405
Choline requirements in three systems 411
Comparison of oogenesis in *Hyalophora* and *Drosophila* 68
Computing techniques in factor analysis 104
Correlations between breadth and girth measurements 223
Correlations between heights of school girls 221
Correlations between length measurements in boys 222
Coturnix 301
Cover glass method for immunofluorescent studies of cell cultures . . . 205
Craniofacial factor in two ethnic groups 109
Craniofacial variables in aborigines 111, 112
Cricetus auratus 8
Crown-rump length
  of rat fetus 166
  of chick fetus 167
  of rabbit fetus 168
Dentition of the house mouse 291
  fluctuating asymmetry in 291
Deoxycarnitine,
  growth effects of 405
Development of cecropia oocyte 25, 26
Drosophila,
  choline requirement for development 410
Drosophila melanogaster 68, 405
Dugesia dorotocephala 152
  uracil incorporation in 153
  H^3-thymidine incorporation in 154
  amino acids-C^{14} incorporation in 155
  regeneration in 156, 157
  leucine-1-C^{14} incorporation in 162
Dwarfism, virus-induced 7
Dynamics of normal growth 233
Growth,
  analysis of 251
  dynamics of 233
  effect of carnitine on 405
  effect of deoxycarnitine on 405
  effect of sulfocholine on 405
  exponential 272, 274
  intestinal 323
  linear 271
  of Australian aborigines 207
  of golden hamsters 350

Left telencephalic hemisphere in human brain 175
Leukemia, bovine 1
Measurements of human skeleton 229
Measurements, intercorrelations of 219
Measures of asymmetry in mouse dentition 294, 296
Metabolic aberrations accompanying neoplastic transformation 147
Metabolic differences between cancerous and normal tissues 145
Metabolic studies of normal and neoplastic tissues 141
Mice, BALB/C strain 86
Micropinocytosis during vitellogenesis 73
Musca domestica 406
Myxobacterales 183
Myxosporangia 186, 187
non-random dispersion of 190
numbers of 190
Myxospores, growth of 185
Neoplasms,
electron transfer system in 144
G-6-P dehydrogenase activity in 142
glucose utilization by 142
Neoplastic tissues, metabolic studies of 141
Neurospora crassa 405
choline-requiring strain of 408
Normal growth, dynamics of 233
Normal tissues, comparison with neoplastic tissues 141
Nucleic acid synthesis in neoplasms 145
Nurse cells of *cecropia* 31
Oocyte nucleus during vitellogenesis 42
Oocyte nutrients in *Hyalophora* 42
Oogenesis, timing of 70
Oogenesis in *Hyalophora cecropia* 17
